

## Filterline - Paint Arrestor Fiberglass Media

### FEATURES / BENEFITS

- Designed and manufactured with advance technology to prevent paint from entering the extract system
- Glass fiber with synthetic resin sizing
- 100% glass fibers
- Heavy paint holding capacity
- High air flow
- Economical
- Air inlet side is coloured

### SPECIFICATIONS

- Average resistance (%) : 90% BS2831-N°2 test
- Humidity : 100% RH
- Max temperature : <100°C

### MATERIALS OF CONSTRUCTION

- 100% glass fiber
- Surface colour : Green

### APPLICATIONS

- Final filters for spray booth extract system and paint eliminator

### TECHNICAL PARAMETERS

Model	Roll Size	Colour	Thickness (mm)	Rated (m <sup>3</sup> /m <sup>2</sup> /h)	Pressure drop (Pa.)	Dust Holding Capacity (g/m <sup>2</sup> )
FT-FG-220	2 x 20m	Green/White	50	7200	47    200	2200
